TACTICAL LIGHT ARMORED VEHICLE

# NMS 4x4

# TACTICAL ARMoured VEHICLE

NMS 4x4, a unique design by Nurol Makina, is engineered to deliver exceptional mobility, survivability, and high payload capability.

Built with a monocoque body and equipped with an advanced drive-train system, NMS 4x4 offers outstanding performance in both rural and urban environments. Its lightweight structure, combined with high-level ballistic and mine protection, ensures operational superiority and resilience.

As a next-generation platform, NMS 4x4 features scalable armour and a modern vehicle electronic infrastructure, enhancing both mission adaptability and crew safety.

- Air Defense Missions
- Anti-Armor Operations
- Personnel Carrier
- Combat
- Reconnaissance & Surveillance
- Anti-Tank Missile
- Double Cabin Pick-up
- Single Cabin Pick-up
- Radar
- Loitering Munitions
- Mortar

## General Features

- Crew Capacity up to 11
- Ergonomic Design
- Run-Flat Tires
- Manual or Remote Weapon System
- Hydraulic Assisted Power Steering
- Left & Right Gun Ports
- Integrated Rectifier in the Vehicle
- Radio Infrastructure
- Quick, Easy and Low-Cost Maintenance
- Smoke Extraction Fans
- Integration of Different Weapon Systems

- Mine and Improvised Explosive Device (IED) Protection
- Scalable Ballistic Protection

## Optional Features

- Central Tire Inflation System (CTIS)
- Chemical, Biological, Radiological, Nuclear (CBRN) Protection System
- Internal Communication System Infrastructure
- Front and Rear Camera System
- Self-Recovery Winch
- Smoke Grenade Launchers
- Siren and Public Announcement System
- Flashing Lights
- Black-out Lighting
- Electrohydraulic Back Door
- 360° Driver Vision Enhancement System
- Engine Pre-heating System
- Military GPS and Vehicle Tracking System
- Personnel Cabin and Engine Compartment Automatic Fire Extinguishing System
