UNRIVALED

EJDER YALÇIN 4x4

CUSTOMIZE TO YOUR NEEDS

Ejder Yalçın 4x4, a unique design by Nurol Makina, offers outstanding survivability, mobility, and high payload capability, making it a versatile platform for a wide range of missions. Thanks to its modular electronic system architecture and advanced vehicle electronic infrastructure, various payloads can be seamlessly integrated onto the platform. This flexibility allows for extensive customization to meet the specific operational requirements of users. Proven in the field under the most demanding conditions, Ejder Yalçın 4x4 supports a broad range of mission-specific configurations, including:

- Command and Control
- Anti-Tank Guided Missile
- Air Defence Missile
- Mine/IED Detection and Clearance
- Ambulance
- Personnel Carrier
- Border Surveillance and Security
- Surveillance and Reconnaissance
- Armored Combat
- Mortar Carrier
- Radar
- Jammer

General Features

- Personnel carrying capacity up to 12 (with extended wheelbase version)
- Ergonomic Design
- Integration of Manual or Remotely Controlled Weapon Systems
- Left and Right Hand Adopted Gun Ports
- Interior Gunpowder Smoke Evacuation Fans
- Easy Embarking and Disembarking Operations
- Run-Flat Tires
- Built-in Radio Infrastructure
- Rectifier Integrated to the Vehicle
- Hydraulic Assisted Power Steering
- Quick, Easy and Low-Cost Maintenance

Survivability Features

- Superior mine protection
- Superior ballistic protection (360°)
- Superior protection against lateral blasts
- Superior protection against Improvised Explosive Devices (IED)
- Mine and ballistic protection approved by internationally accredited organizations

With its powerful diesel engine, high torque capability and fully independent suspension system, the vehicle offers

SUPERIOR OFF-ROAD PERFORMANCE

up to 1.1 m
FORDING

0.5 m
OBSTACLE CLIMBING

1.1 m
TRENCH CROSSING

30%
SIDE SLOPE

60%
GRADIENT

Optional Features

- Chemical, Biological, Radiological, Nuclear (CBRN) Protection System
- Central Tire Inflation System (CTIS)
- Internal Communication System
- Vehicle Front and Rear Camera System
- Day / Night Vision System
- Self-Recovery Winch
- Smoke Grenade Launchers
- Internal Controlled Projector and Announcement System
- Black-out Light System
- Electrohydraulic Back Door
- Fuel Tank; Explosion Proof and Puncture Resistant
- 360° Driver Vision Enhancement System
- Pre-heating System for Cold Environments
- Engine Pre-heating System
- Military GPS and Vehicle Tracking System
- Personnel Cabin, Vehicle, Tire and Engine Compartment Automatic Fire Extinguishing System
- Floating and Deflector Base
